03334541133 | ranaadeeltahir@gmail.com

I am a 3rd-year student at FAST NUCES, currently in my 6th semester. My academic journey has exposed me to a diverse range of subjects, enabling me to develop a well-rounded skill set

EXPERIENCE

FLUTTER DEVELOPER

Full App Creation | Fivver

2023-PRESENT

As a part of my gig on Fiver I developed a complete social networking app with Firebase following the model-view-controller pattern. I utilized the Firebase's Firestore real-time data storage and fetching, Storage for storing raw photos and videos and Authentication for authenticating users with email and password.

PROJECTS

WAVESHOTZZ

Flutter | Firebase | Clean Architecture |TDD

2023-PRESENT

I converted my client's project in MVC to clean architecture following test driven development

https://github.com/Holy-Morphism/WaveShotzz

MILESTONE

Flutter | Firebase | Clean Architecture

2023

Created a AI Journaling app using the OpenAi's ChatGPT API, is publish on Playstore.
